

Date: Thursday, July 13, 2023

Time: 1 – 3:30 p.m.

Place: Zoom hosted by Kevin Hobbs

NMGS Executive Committee Meeting Minutes – Q3 2023

Online via Zoom video conference

Reported by Bonnie Frey

Attending

Kevin Hobbs, vice president;

Bonnie Frey, secretary;

Brian Hampton, president;

Adam Read, webmaster;

David Lemke, publications committee chair;

Johanna Blake, treasurer

Lewis Land, 2023 field conference leader

OPEN MEETING

1. Call to order (Brian Hampton) at 1:05 p.m.
 - A quorum was present
2. Last-minute additions to the agenda (to be discussed at the end of the open meeting)
3. Webmaster's report (Adam Read)
 - Email system upgraded
 - Migrating to new system for credit card payments
 - Still need to upload past years EC meeting minutes (2019-Present)
 - Gave the EC the file sharing system link (see closed minutes)
 - Will put honorary members on website; suggested putting guidebook dedication on the website
 - Has DOIs in place
 - Bureau has new style guide; could be utilized by NMGS
4. Publications Committee report (David Lemke)
 - Anne Jakle and Brittney Van Der Werff committed to producing the 2024 guidebook
 - Dan Koning and Cynthia Connolly asked to include material from the 2022 guidebook for Rockin' Around New Mexico. David is asking for written requests.
5. Scholarships Report (Susan Lucas Kamat; given by Brian Hampton)
 - Lewis capped student travel scholarships at 24 for field conference
 - Much of scholarship info will be handled online for this quarter

6. Fall field conferences

a. 2023 – Carlsbad; update (Lewis Land, Kate Ziegler)

- Received proofs for guidebook
- Starline invoice \$9,190; field-trip budget includes only the guidebooks for the attendees
- Lodging and meals locked down
- Transportation – eight NMT vehicles; drivers must be NMT employees
- \$475 full price and \$400 additional for partners (*After the meeting, Lewis revised this number to \$450 for full price and \$385 additional for partners.*)
- No COVID restrictions

b. 2024 – Nacimiento and Rio Puerco; general discussion (Karl Karlstrom, Johanna Blake?, Matt Heizler?, Larry Crumpler? Nels Iverson?)

- Brian will send a follow-up email to Karl to see if he needs help from the EC and invite him to the next EC meeting. Also asking who the trip leaders will be.

c. 2025 – Eastern San Juan Basin; update (Kevin Hobbs)

- Will now base out of Cuba; check into guest ranch and see if students can camp there for free and hold the barbeque there; limited hotel rooms

d. 2026 – Albuquerque III; general discussion (Dan Koning and Sean Connell; support from Karl Karlstrom)

- Can invite for next meeting if they have things to report

7. 2023 NMGS Spring Meeting

- Next spring meetings dates:
 - Friday, 19 April 2024, and Friday, 25 April 2025NMGS has the Macey Center Auditorium, upper and lower lobbies, Galena Room, and Copper Room reserved from 6:00 A.M. to 6:00 P.M. for these two days
- Had some problems with Macey Center operations during spring meeting – poster boards were not there, the day before the meeting learned there was another event, no computer at the podium, orchestra pit was open
- Bylaws said the meetings will be held in Socorro
- 2024 themes/topics and speakers (possible ideas: “Energy Transitions”)
 - Brian or Bonnie will follow up with Shari Kelley

8. Discussion of any additions-to-agenda

- 501c3 (Annual Report submitted; agents/directors/EC members updated; due next on 05/15/24)
- NMGS Insurance (need to pay by late July/early August); due date Aug. 19 ~ \$3000; Brian and Johanna will move this forward; Brian will reach out to Scott Baldrige about field conference insurance
- Tax returns/accounting (for EC and Foundation) moving forward (new Google Drive folder; Donna Peace recommended from John Shoemaker); to be addressed in Q4 meeting

Open meeting adjourned at 2:39 p.m.

CLOSED MEETING

Call to order: 2:46 p.m.

1) Approval of minutes

- a. Move to approve the minutes, Blake; seconded, Hampton; approved by all

2) Secretary report (Frey went over action items from the last meeting)

- Move forward without COVID requirements
- Bonnie needs to move forward with missing minutes; Johanna and Brian will upload their minutes
- Hobbs and Blake will go to the Foundation to inquire about the Foundation gas revenue and thereafter check in twice a year. This will help the EC plan the next year's budget. The next meeting is next Saturday.

3) Treasurer report (Blake)

- Balance for checking \$4,490.42
- Balance for savings: \$31,830.86
- Needs to transfer funds to cover check for \$7040.57; will transfer the full amount today (this is for the Macey Center charges from spring meeting.)
- Will go to Foundation before the fall meeting to have funds transferred to cover costs. Request will be just for 2023 scholarships to date (fall meeting scholarships, book awards, etc.).

4) Vice president's report (Hobbs)

- No Foundation meeting since last EC meeting. Will be next Saturday.

5) President (Hampton)

- Will contact Dan Koning, Sean Connell, Karl Karlstrom, insurance

Links to non-public links

- EC file sharing system --- <https://nmgs.nmt.edu/about/officers/filesshare/home.cfm>
- Link for accounting Google drive folder for EC and Foundation --- <https://docs.google.com/document/d/1itjUZbmChpOCef2lbNOvqzC281d7olVvgaPmANtu-k8/edit?usp=sharing>

Choice of honorary members

- James Cearley elected as the 2023 honorary member – moved by Frey, seconded by Hobbs; all in favor
- Other recommendations for honorary members
 - Frank Ramos – valuable work on Foundation; two field conferences; EC
 - Lewis Land – EC, two field conferences
 - Susan Lucas Kamat – EC, did a lot of work on scholarships and added new schools

Possible next EC members

- Marisa Repasch – junior faculty at UNM
- Laila Sturgis – Bureau of Geology
- Amy Galanter – USGS
- Jolante Van Wijk – LANL
- Andy Jochems – NMED
- Peter Burck – Fish and Game

Next meeting 2-4:30 p.m. Oct. 4, in person with Zoom option

Adjourned 3:31 p.m.

Third Quarter 2023 Executive Committee Email Business

An ad hoc meeting was held on May 8, 3-3:20 p.m., to conclude the business described in the email string below and to approve the Nacimiento / Rio Puerco field conference for 2024.

9:16 AM (6 hours ago)

Hobbs, Kevin

to Dan, karl, me, Brian, Johanna, Warren

All,

It's not even certain that 2025 will go to Cuba yet; the lack of hotel rooms is concerning. I sure do want to go there, though. If 2025 ends up in Cuba, then geomorph will focus more on the pediments coming off the Sierra Nacimiento, and perhaps the post-1880's incision of the Rio Puerco. Dan's idea about the copper sulfide mineralization in the Sierra Nacimiento is on my list, as well, though it will likely be in the form of an optional post-trip field site, as it requires serious walking. The main focus of the Cuba-area field day for 2025 will be on Paleogene sedimentary-tectonic links and on post-Eocene faulting in the interior of the basin (is it rift-related, subsidence-related, compression-related, or other?). I'm hoping Shari Kelley et al.'s current mapping in the Llaves area will be incorporated into the field trip, as well.

On Fri, May 5, 2023 at 8:31 AM Koning, Dan <dan.koning@nmt.edu> wrote:

I would like to thank Karl for leading the 2024 FFC. I forgot that Kevin's trip was going to Cuba, so that is quite close. As has been said, we have to be careful not to overlap, but rather have the 2024 and 2025 trips compliment each other.

Karl, you may also want to reach out to Shari Kelly regarding the SW Jemez Mtns.

Kevin, on your field trip were you planning to go into the Holocene geomorphology and modern incisional history of the Rio Puerco?

Also, those sandstone red-bed copper mines in the Nacimiento Mtns might be a crowd pleaser. They have neat chalcocite replacement of plant fossils. They are mostly near Cuba, but I think there are also some in the Jemez River watershed.

Dan

On Thu, May 4, 2023 at 4:23 PM karl karlstrom <kek1@unm.edu> wrote:

Hi All,

I agree that there would not be much overlap and, rather, the trips can be good complements to each other.

If we wanted to link them conceptually and make them a bit of a "don't miss" NMGS triad, I can imagine brainstorming some creative approaches or themes that span the guidebooks:

E.G.

Southern Rocky Mountain nexus (Nacimiento Mtns; 2024) between the SE Colorado Plateau (2025) and the central Rio Grande rift (2026)

- 1) Historical retrospectives that link them -- Traditional land use of Native people, GK Gilbert, Santa Fe railroad, etc.
- 2) Cross section across different tectonic elements
- 3) Strat correlations across the foreland and Cretaceous seaway
- 4) Linking these physiographic provinces to their underpinnings

Just a start

KK

On Thu, May 4, 2023 at 3:51 PM Hobbs, Kevin <kevin.hobbs@nmt.edu> wrote:

[EXTERNAL]

All,

I think Karl's Sierra Nacimiento days for 2024 would be a complement to anything that I might do in Cuba in 2025. I've got no fear of Karl stealing thunder, as most of my Cuba-area stops will be Paleogene and later. I'm sure this can work well. I still plan to have 2025 start in Pagosa Springs.

Thanks!

-Kevin

On Thu, May 4, 2023, 3:36 PM Frey, Bonnie <bonnie.frey@nmt.edu> wrote:

Karl,

Brian is just coming back from the field and made a really good point about Kevin Hobb's field conference in 2025. Nacimiento and Rio Puerco are getting very close to Kevin's proposed route. We will want Kevin to weigh in on this, and we'll need a discussion to make sure the proposed routes for 2024 and 2025 don't

overlap too much. Below is the route Kevin presented to the EC in January:

- San Juan Basin- If we start in Pagosa springs, we would have a pre-meeting field trip at Chimney Rock or potentially glacial deposits.
 - Day 1 - walking tour of Pagosa Springs (about 4 miles).
 - Day 2 - tectonics in Cuba; old hotels with only 50 rooms.
 - Day 3 - Final day would be based out of Cuba and focus on tectonics and Laramide deformation and potentially Rio Puerco geomorphology.

Kevin,

Karl has a novel idea to somehow tie together the trips from 2024 to 2026. Please let us know what you think of this sequence:

- 2024 - Nacimiento and Rio Puerco
- 2025 - Cuba
- 2026 - Albuquerque

Bonnie

On Thu, May 4, 2023 at 11:53 AM karl karlstrom <kek1@unm.edu> wrote:

Hi Bonnie et al.,

I am willing to take the lead on the 2024 NMGS meeting and can work with Dan and Sean on the 2026 Albuquerque meeting as well. This is unexpected, but may work OK for me as I am on sabbatical in the Fall (2023) and have several "back burner" papers that we can submit to these guidebooks.

The title needs discussion; it could be:

Geology of the Nacimiento Mountains and Rio Puerco Valley

The meeting hotel location will need some work-- Nels and I can look into Tamaya Resort in Bernalillo-- maybe they could give us a deal through UNM and NMGS

Banquet-- at Tamaya?

BBQ--the Park in Jemez Springs?

Dates- How about Oct 23-26, 2024? This misses ABQ Balloon Fiesta which is Oct 4-19 and GSA which is Set 22-25 in Anaheim CA.

2024:

Day 0- various smaller trips (Sulfur Springs in Jemez, Santa Anna Mesa, fossil trips, etc.)

Day 1- Rio Puerco Valley

AM- Puerco Necks and volcanics of Mesas Prieta and Chivato- Larry Crumpler and others to lead

PM- Santa Fe Gp or other- Dan and others to lead

Day 2- San Ysidro area:

AM: Mesozoic rocks and folds, travertines, Rio Salado and Jemez river terraces- KK and others to lead

PM- Proterozoic at Gillman tunnels, end at Soda Dam -- KK and others to lead

Half day 3- maybe we can arrange some tribal tour and interactions with Santa Ana, Jemez, and/or Zia?

I am happy to work with others on this. Based on conversations with Bonnie and Dan, I am assuming the following people will be part of the organizational group

Me, maybe Matt Heizler, Johanna Blake- technical editing

Larry Crumpler and others- roadlogs

Nels and others- logistics

If the EC thinks this can work, I'll get in further contact with these organizers and start soliciting papers

Karl

Hi

all,

Karl Karlstrom has graciously agreed to consider a 2024 field conference. He and Dan Koning have been discussing ideas, and Karl has a proposal that he'd like to send to the EC.

Karl, I'd suggest you reply all and send your proposal via this email string. Thank you so much for working on this!

I reached out to Karl and Laurie this morning and Jarl is thinking about it. He has some recent science to share. If Mark Holland agrees then this could be the perfect match of a seasoned leader with a young up and coming leader.

Subject: Re: [EXTERNAL] 2024 FFC - actions needed

Hi All,

I thought Mark Holland's name was mentioned at our Q2 meeting in the context of possibly having some new data from the ABQ region or just south (Manzano Mtns.). If Nels can cover logistics, then it seems like the main need would be the science editor.

WARNING: This email originated external to the NMSU email system. Do not click on links or open attachments unless you are sure the content is safe.

Nels said he could lead the logistics in ABQ 2024. I have to prepare for my next meeting, but afterward, I will email the people who said they could lead or help so everyone knows who said what.

Kevin has a concern that Dan Koning had said he would lead ABQ in 2026, so I left a message with Dan to make sure he knows about these discussions for 2024.

As far as planning a different location for 2024, I think that sounds too much like reinventing the wheel, when we've already been discussing ABQ in 2024.

Bonnie Frey

On Tue, May 2, 2023 at 10:03 AM Frey, Bonnie <bonnie.frey@nmt.edu> wrote:

Larry Crumpler said he would lead the roadlog effort. He does not want to handle logistics.

Johanna, can you still lead the guidebook effort?

I'll call Lewis Land back this afternoon and see if he can manage the logistics (food,etc.). I left a message for Laurie Crossey as well.

Bonnie Frey

On Tue, May 2, 2023 at 9:29 AM Blake, Johanna M <jmtblake@usgs.gov> wrote:

Hi all-

I don't know who we could get to lead the ABQ FFC in 2024. Does it make sense to hold off until 2026 when Dan and Sean have more time? At that point, I can plan to be more involved with leading.

For 2024, is there an area that anyone you know has be doing a lot of work?

Seems like we should make a decision very soon about what to do.

Johanna

Subject: [EXTERNAL] 2024 FFC - actions needed

This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

All,

First, thank you to Bonnie for replying to Susan.

Regarding the 2024 Albuquerque FFC, Dan Koning told me this week that he might be able to lead a field stop or two, but cannot take on the FFC role any more than that. I reached out to the Albuquerque NMBG office (Adam Read, Bruce Allen, and Geoff Rawling) to ask if any of them would take on the leadership of the meeting. Bruce and Adam said no, and Geoff is out of the office for a while but I don't expect he'll accept. Bonnie has been in touch with NMMNHS scientists Larry Crumpler and Jayne Aubele, who have agreed to assist with guidebook editing. We have to find someone who can road log and lead field trips.

This leaves us in a tight spot. To put together an FFC with 16 months' notice will take an enormous amount of someone's time. We need to find someone who can give us a firm "yes" pretty quickly or consider some out-of-the-box alternatives. If we can't get someone to take on the Albuquerque FFC, we should remember that the 2024 FFC doesn't have to be in Albuquerque - is there someone who could put together an FFC *anywhere* with 16 months' notice? If so, we should consider it. Unfortunately, I cannot move the 2025 FFC up by a year.

Action items:

1. **Any ideas for people to ask to lead the 2024 Albuquerque FFC?** Karl Karlstrom; Laura Crossey; others? Who should reach out to them?
2. **If nobody will take on the Albuquerque FFC logs and field trips, what is our next step and when do we make that decision?**

Thanks,
Kevin

NMGS Webmaster Report

Adam Read
13-July-2023

Email System

The bulk email system has been upgraded. It now allows an image and PDF to be attached to messages. To reduce message size and load on the system, we should only attach PDFs when they aren't posted online somewhere. If so, we can just include a link to the posted PDF.

E-commerce Changes

Currently, credit card payments for book orders, memberships, and registrations are stored until they can be processed manually. There have always been security concerns with this, but we have been hampered by bank system limitations. In the near future, we expect to migrate to a system that will automatically process credit card payments in real time.

DOIs

DOIs have been registered for all publications and meeting abstracts from 2006 until present. I'm hoping to register more abstracts and proceedings volumes, but need to scan the volumes.

DOIs for the 2023 Spring Meeting were added just before the layout of the program was done.

The 2023 guidebook will have DOIs printed in the text for the whole book (copyright page), and on the first pages of road logs and papers.

Ongoing:

- The NMGS website has automated News, Events, and Announcements functions. If there is anything new that should be posted, please let me know. It is also possible for EC members, with permission, to create postings via a web form.

- New banner pictures, especially of NM, are welcome. It is also possible for any member, with permission, to create postings via a web form.
- Image Galleries have been created for Field Conferences. They can also be created for any topic or event. Members with permissions can contribute to these galleries directly.

Sales Rep _____ Authorized Signature _____ Date _____

These estimated costs are based upon the specifications furnished to Starline. All prices and delivery schedules are subject change. Due to the fluctuation in material cost, these figures are valid for only 30 days. On the back of this form, please find the Graphic Communications and Printing Trade Customs, which are an integral part of this agreement. In the event we are required to hire and attorney to collect your account, you agree to pay all of our attorney fees and court costs. Your signature indicates an understanding and acceptance of these terms and conditions. Invoices not paid within 30 days are subject to 1.5% per month service charge.
